

NP Lanitis has been building a significant presence and know-how in the market for electrical supplies since the 1950s. Lanitis Electrics, previously a division of N.P. Lanitis, was spun off as a wholly-owned subsidiary in January of 2007. Aligning itself with reputable global manufacturers, Lanitis Electrics exclusively represents well recognized international brands known for their excellent quality and highest standards.

These include Honeywell MK, Hager Electro, 3M, Gent by Honeywell, El Sewedy Cables, Deta Electrical, Videx Electronics, Mainline Power Europe and others.

Combined, they offer an extensive product line consisting of cables, wires, wiring accessories, circuit protection, automation devices, fire detection systems, cable management systems, etc.

Operating as both wholesaler and retailer, Lanitis Electrics caters to all segments of the market, with its client base ranging from electrical contractors to individual electricians, retailers and homeowners.

The key to the company's success stems from over six decades of experience and strong relationships with suppliers, clients and employees, as well as its ability to offer a complete range of quality products with market driven prices and excellent customer service.

Conercon Energy Solutions, plays a pioneering role in the Cyprus Renewable Energy market, aiming to reinforce its dynamic presence in the market over the past twelve years.

Having put in place a long-term development program in the broad sector of renewables, the company successfully has installations to date, exceeding 15MW in photovoltaic as well as a significant number of solar thermal systems covering a total area of 2468m<sup>2</sup>.

Conercon Energy Solutions fully utilizes the latest technologies in the design, sale and installation of photovoltaic systems of the highest standards both for residential, commercial and industrial sectors as well as large-scale PV parks.

Through this long-term energy program, the strategic goal of the company is the collaboration with well-recognized global partners and suppliers in the renewables industry thus ensuring both physical and legal entities, the highest return on investment while guaranteeing top quality. Such international companies include Luxor, Kostal, ABB, Kaco, Studer, Lorendz. and Muskita.

With a stellar technical department, both in equipment and labour force, Conercon Energy Solutions firmly stands by the client even after the initial investment in providing the entire range of services, technology and expertise in the renewable energy field.

This expertise is further enhanced and strengthened with exclusive collaborations with Authorized Service Partners of the German company KACO New Energy GmbH and the Swiss STUDER Innotec in Cyprus.

Realizing that the use of renewable energy has become a priority, the shift to clean energy sources is most likely the only way to reverse climate change already threatening the planet, while reducing dependence on traditional forms of energy; a position which firmly aligns with the principles of Conercon Energy Solutions to make a difference.

Lanitis Gas was founded in 2005 and is the exclusive distributor in Cyprus of the liquefied petroleum gas (LPG) Agip-Eurogas supplied by Petrolina Holdings. In a brief time period, the company has established itself as one of the most competitive companies in the LPG sector, providing services in the field of trade/sale and distribution of LPG in cylinders.

With ample storage space, a well-organized sales network covering all of Cyprus and a large fleet of vehicles at hand, Lanitis Gas is fully equipped to meet the market needs, whatever the requirements.

The company supplies gas cylinders to supermarkets, small and large retail outlets, restaurants, cafeterias, etc offering services in its relevant field.

LPG, as one of the most efficient and environmentally friendly types of fuel, nowadays constitutes one of the major energy needs in almost all areas of everyday life: for heating, in the catering industry, industrial areas and as a propellant.

Lanitis GasTech Ltd, subsidiary of Lanitis Gas, was founded in 2010 to handle the promotion, sale and distribution of bulk LPG, thus covering the most developing field of liquid petroleum gas and natural gas in the market as well as the expansion of activities in the industry.

Furthermore, Lanitis GasTech, in conjunction with the relevant technical and scientific know-how and the acquired broad experience in the general use of LPG, is well positioned to provide complete solutions pertaining to the most demanding LPG bulk cases.
